

# RMFM Rocky Mountain Fluid Mechanics 2020 Research Symposium

Tuesday, August 4, 2020

Online through Zoom

Call for Abstracts

Due by July 21, 2020, submit [here](#)

The Rocky Mountain Fluid Mechanics (RMFM) Research Symposium is a local technical meeting bringing together students, faculty, and professional researchers with a common interest in fluid mechanics. The primary purpose of the symposium is to provide students along the Colorado Front Range and the greater Rocky Mountain Region the opportunity to present and discuss their work in a casual setting. All interested researchers are encouraged to present, but a presentation is not required to attend the meeting. More information is provided at [rockymountainfluids.org](http://rockymountainfluids.org). As part of its educational mission, only undergraduate, graduate, or postdoctoral researchers will deliver presentations at RMFM 2020.

Due to COVID-19, we will be conducting the conference virtually with the following format. Presenters will pre-record a video of their research that is no more than three minutes in length. This video can take any form presenters would like, including but not limited to: a recorded oral presentation with slides, a video of an experiment or simulation, or a fluids demonstration. More details are provided [here](#). The videos will be published two days prior to the conference on Youtube and taken down August 18th. On the day of the conference, videos will be played in different sessions based on subject matter and, after each video, the moderator will facilitate two minutes of Q&A from the audience and video comments. Additional events during the conference will include a keynote speaker and a panel discussion on diversity.

Abstract submissions should be submitted to <https://forms.gle/6V8W11HYhf1iaD6J7> by 11:59pm on July 21, 2020. Completed submissions must include:

- Title of presentation
- Presenting author name, educational level, and affiliation
- Co-author names and affiliations
- Abstract text (1300 character maximum) and keywords

Upon receipt of abstracts, a link will be provided for uploading video submissions. These submissions must be uploaded by 11:59pm on July 31, 2020 and must include:

- A video of the research presentation in mp4 format
- A completed form (provided via email) giving consent to publish the video on Youtube

If you would like to attend RMFM but do not intend to present, please register [here](#) to receive the Zoom link and password. The registration deadline is 5:00pm on August 3, 2020.

For more information, please see [rockymountainfluids.org](http://rockymountainfluids.org) or contact [info@rockymountainfluids.org](mailto:info@rockymountainfluids.org).
