

Friday, August 8th, 2025
In-Person at the University of Colorado Boulder

Registration and Call for Abstracts

Due by Friday, August 1st at
Submission Link: <https://forms.gle/herLAZXErXhXFCrBA>

The Rocky Mountain Fluid Mechanics (RMFM) Research Symposium is a local technical meeting bringing together students, faculty, and professional researchers with a common interest in fluid mechanics. The primary purpose of the symposium is to provide students along the Colorado Front Range and the greater Rocky Mountain Region the opportunity to present and discuss their work in a casual setting. All interested researchers are encouraged to present, but a presentation is not required to attend the meeting. More information is provided at rockymountainfluids.org. As part of its educational mission, only undergraduate, graduate, or postdoctoral researchers will deliver presentations at RMFM 2025.

We are pleased to announce that RMFM will occur in-person this year at the University of Colorado Boulder East Campus. Logistics details will be available at rockymountainfluids.org. Presentations will be 10 minutes in length with 2 minutes for questions.

Abstract submissions should be submitted to <https://forms.gle/herLAZXErXhXFCrBA> by **11:59 PM on Friday, August 1st, 2025**. Completed submissions must include:

- Title of Presentation
- Presenting author name, educational level, and affiliation
- Co-author names and affiliations
- Abstract text (1300 character maximum) and keywords

If you would like to attend RMFM but do not intend to present, please register [here](#) so that we may obtain an accurate headcount. The registration deadline for attendees is 11:59pm on August 1st, 2025.

For more information, please see rockymountainfluids.org or contact info@rockymountainfluids.org.
